Powerful Applications

Management at your fingertips

As a **hand held device**, SmarTerminal is a rugged computer that works in the harshest of environments. Weighing in at only 330g, SmarTerminal is an ergonomically efficient way to keep operatives busy for longer, increasing productivity and job satisfaction.

As a **PDA**, SmarTerminal has outstanding memory capacity, expandable by flash-card.

As a **communicator**, SmarTerminal exchanges information via Bluetooth, Ethernet, RS232, wireless and USB. SmarTerminal moving all the business critical information to the right place at the right time in the background with the minimum of fuss: SmarTerminal is the ideal tool for collecting evidence for enforcement.

As a **mobile device** with:

- an integrated camera and our own ANPR (LPR) software to issue enforcement notices
- Phone UI
- RFID
- Barcode reader

As a **remote work tool** that allows field-based staff to carry our tasks on our purpose-built applications that update the back-office systems on a real-time basis.
